*Mango Facial Enzyme Peel*

There are many types of peels available to the esthetician that function to remove the top layers of skin leaving a younger smoother skin with more uniform pigmentation and improved texture. The Mango enzyme peel is one of the mildest forms of peels for the simple reason that the enzymes work specifically on dead skin cells, as opposed to acids that affect live cells as well.

**PROCEDURE: 60 to 75 Minutes**

**Skin type and expected results:**

**Oily and acneic skin:** Proteolytic enzymes are very effective in hydrolyzing the horny cells on the inner surface of the follicle as well as the sebaceous core of comedones.

**Dry skin:** Proteolytic enzymes remove accumulated dead skin cells improving texture and tone leaving the skin soft and smooth. The skin will better accept creams and lotions as well as their active ingredients. Makeup application will look flawless and not caked on the face.

***Items needed for treatment: Makeup Remover, Lavender or Lemon Milk Cleanser, Marine Plasma, Mango Massage Oil, Mango Facial Enzyme Peel, Mango Butter Cream, Eterna Bella, Eye Serum, Protective, Enriched or Balancing Cream, Sun Defense Mango Moisture Mask.***

**Step 1:** Remove eye makeup and lipstick with Makeup Remover. Choose appropriate cleansing milk, and apply to dry face and neck. Massage and rinse. Using a cotton pad, tone with Marine Plasma to remove any residue.

**Step 2:** Blend 1 tbs. of Mango Facial Enzyme Peel with warm water and mix, add 1/4 tsp. of Mango Butter Cream and blend to create a thin pancake batter consistency. Let sit 5 minutes and then apply a thick layer to the face and neck with a mask brush avoiding the eye area. Leave on up to 5 minutes under light steam and then remove with a warm cloth. Massage hands and arms while Mango Facial Enzyme Peel is on.

**Step 3:** Begin facial massage under steam for additional (5 min for dry skin then turn off steam and continue massage for 5 additional min, 10 min for oily or combination skin) using Keyano Mango Massage Oil. Remove excess oil with warm damp cloth. Tone with Marine Plasma and remove residue with cotton pad.

**Step 4:** Extract, if necessary. Tone with Marine Plasma and remove residue with cotton pad.

**Step 5:** Apply Mango Moisture Mask and leave on for 5 minutes. While client is masking give scalp massage. Remove mask with wet cotton diaper or towel.

**Step 6:** Finish with Eterna Bella (mature or dry) or other appropriate Keyano day moisturizer, Sun defense, Eye Contour Gel or Eye Serum.

**Recommended Home Care:** Lavender (Dry) or Lemon Milk (Oily) Cleanser, Marine Plasma, Eterna Bella or appropriate day and night cream, Eye Contour Gel or Eye Serum, Sun Defense, Mango Butter Cream, Mango Scrub, Mango Shower Gel.
